

GABRIEL MILES F. CAÑETE

Tacloban City, Philippines | (0917) 323-4682 | gabrielmiles@gmail.com

PROFESSIONAL SUMMARY

BSIT graduate with hands-on IT support experience, accurate data entry, and a strong foundation in software development and systems. Proven ability to manage records with precision, troubleshoot complex issues, and lead technical projects that deliver results.

EXPERIENCE

IT Intern | Police Regional Office 8 (PRO-8)

2026 | Palo, Leyte

- Provided technical support for office computers, printers, and software applications, performing hardware and software troubleshooting, routine maintenance, and system updates.
- Encoded, maintained, and organized digital records and IT documentation with a high degree of accuracy.
- Supported network setup, computer configuration, and day-to-day office technology operations, collaborating with staff to diagnose and resolve technical issues and maintain smooth operational continuity.

Reference: PCPT Jackeron Canuday

Project Manager | INTERNMATCH: AI-Powered Student Internship & Apprenticeship Placement System

- Served as Project Manager for INTERNMATCH, an AI-powered system designed to scan and verify student requirements for internship and apprenticeship placement.
- Acted as the main point of contact for clients and stakeholders while guiding and supporting team members to keep tasks on track and resolve issues.
- Oversaw requirements gathering, system analysis, and testing, successfully delivering and defending the completed system with approval from the academic panel.

Project Manager | PRO8 Internal Web Systems

- Led the development of an internal IT operations platform with role-based access control for SuperAdmin, Admin, IT Personnel, and Staff.
- Delivered core modules for IT ticketing, task management, team messaging, and event coordination, with real-time updates for messages and notifications.
- Implemented AI-powered face detection for secure login authentication.

Full-Featured Point-of-Sale System | POS & Inventory System

- Built a full-featured point-of-sale system with real-time inventory tracking and low-stock alerts.
- Developed live product search, dynamic cart updates, and a sales analytics dashboard with CSV/PDF export reporting.
- Integrated third-party payment processing and implemented role-based access for Admin, Cashier, and Manager.
